What Makes Us Different

Mobile COVID-19 Testing stands out from the rest in many ways. Our laboratory is entirely mobile, meaning we can test you or your employees no matter where you are located. We are happy to offer on-site and in-home COVID testing to residents and businesses. Our PCR and rapid antigen testing options give you the results you need when you need them. Businesses and events can benefit greatly from our on-site services because it is paired with our proprietary system that notifies you immediately of a positive test result. This unique system is what you need by your side to prevent outbreaks and maintain the efficiency of your business or the enjoyment of your event.

Who We Are

Mobile COVID-19 Testing is a mobile laboratory service focused on providing residential and commercial COVID-19 testing services. We are comprised of experienced and qualified lab technicians, who provide accurate and rapid testing solutions.

What Our Clients Think

"We have been extremely grateful for the on-site COVID testing services their team has been able to provide. It has kept my business's downtime to a minimum and has prevented outbreaks from occurring amongst my employees. I couldn't be happier with their work."

- Yolanda U.

"I needed a COVID test after being deathly ill for several days. I called Mobile COVID Testing for an in-house test. They came to my house the same day and emailed me my results a couple of hours later. I was relieved I didn't have to go anywhere. Their service was perfect."

- Joel D.

"The in-home COVID testing really helped me and my husband. We had been feeling sick over the weekend and their in-home testing services helped us get the results without having to leave. Great job on their part!"

- Tamar W.

"Our venue has used Mobile COVID-19 Testing for several months now. They are efficient and the notification system helps our events stay safe. We will certainly continue using them in the future."

- Rebecca F.
